The entire range is designed and manufactured in Spain. **Nicolás Correa, S.A.** has been listed on the Madrid Stock Exchange since 1989.

The **XPERTA** represents a new concept in fixed frame, lateral ram machine. Very sturdy thanks to structural elements with large sections together with an L-shaped ram guide system. A high precision thanks to the mechanical ram droop correction system. A flexible machine suitable for machining and finishing operations.

L GUIDE-WAY SYSTEM CONFIGURATION

- L-shaped guide system:
 - Greater rigidity and stability during machining.
 - Greater geometrical precision.
 - Less ram droop effect.
- 6 vertical movement sliders ensuring good machine behaviour.
